

Kedsey Staff Pages Fixes

All pages

1. The page titles all say "KidseyStaff" when it should say "Kedsey Staff"
2. Can the header be highlighted for what page you are on. If you are on the Peripherals page, can that be highlighted, and the page-title reflect that.

Peripherals page

1. Entering peripherals: Password should have no minimum length, right now it is 8 characters, and it should have none. Also, the password field should not be "****," we need to be able to see it.
2. Can we have two buttons next to the "End of Life." One button will automatically add 1 year to the "start date" for this field, and one button will add 4 years to the for this field:

StartDate *

EndofLifeDate *

3. Set the default for Asset Tag to: "ked000" where the 0 are zeros, and no quotes.
4. The Assigned To field, can this be a drop down of Staff Usernames?
5. Add a text field: "Serial Number"
6. Add a notes field for "Description"
7. Right now, all fields are required. Only the "Type" and "Start Date" should be required.

Keys Page

1. Add an End of Life Date, same as above, with the two buttons for "4 years" and "1 year"
2. Add a text field called "Key" below the "End of Life Date"
3. Add a text field for "Cert Location"
4. Add a text field for "Owner"
5. Add a yes or no filed for "Used"

Clients Page

1. Add a text field for "Email Address"
2. Add a text field for "Report to"
3. Add a text field for "Final Decisions By"
